Re: Drasner v. SH! Acoustics, et al.
Case No. 07 Civ. 5970 (SHS)
Our File No. 12942-0001

Dear Judge Stein:

We are counsel to Defendants SH! Acoustics and Steven Haas in the referenced action presently pending before you. The parties have been engaged in discovery including an exchange of documents and depositions pursuant to a discovery order signed by Your Honor on August 9, 2007. While the parties have also had some productive settlement discussions, I have recently learned that my client has been diagnosed with cancer and is required to undergo an aggressive chemotherapy procedure which will necessarily affect his ability to travel and to participate in discovery for approximately 2 months. I have spoken with counsel for Mr. Drasner and they have agreed to a joint request for a stay of all current deadlines. Accordingly, the parties jointly request that the discovery deadlines in the case be temporarily stayed, the conference scheduled for November 16, 2007 be adjourned, and a conference call scheduled for early December so we can provide the Court with an update on my client's status.

Thank you for your consideration.

Respectfully submitted,

William R. Fried
